WSUGME Residency Programs

Appointment Requirements

Prior to appointment, all trainees are required to submit the following (see the complete list found on the [GME website](#)):

- » A valid license to practice medicine that complies with applicable provisions of laws pertaining to licensure in the state of Michigan
- » Signed Graduate Medical Education Agreement of Appointment
- » Original certified transcript from medical school
- » Medical school diploma
- » Minimum of three House Staff reference letters
- » Proof of legal employment status
- » Results of health examination and supplementary test(s), which include screening for drug and/or alcohol abuse, and all required immunizations in compliance with the sponsored program hospital's policy and all applicable federal, state, and local laws and regulations

Required Examinations:

- » A passing score on USMLE Step I and II CK & CS examinations

Eligibility

Trainees must be **one** of the following
in order to be eligible for employment:

- » Graduates of a medical school in the US or Canada accredited by the Liaison Committee on Medical Education (LCME)
- » Graduate of a college of osteopathic medicine in the US accredited by American Osteopathic Association (AOA)
- » Graduate of an international medical school, documented by an ORIGINAL, current, and valid Educational Commission for Foreign Medical Graduates (ECFMG) Certificate

Non-US Citizen International medical graduates:

- » In addition to all the above requirements, international trainees must also submit proof of current visa status
- » If currently on or applying for the Exchange Visitor Visa (J-1), the trainee must also provide (1) a curriculum vitae and (2) a Ministry of Health Letter from home government

I came to Wayne State to receive top-notch residency training and make my dream of becoming an anesthesiologist come true.

– Alicia Barclay, MD
Anesthesiology

WSUGME Residency Programs

Become a WSU Warrior!

Our Mission

To lead and oversee innovative Graduate Medical Education programs where physicians in training develop personal, clinical, and professional competence to provide exceptional patient care.

Our Objectives

- » **Create** national visibility for innovative medical education initiatives that enhance resident training
- » **Educate** faculty and residents on training competencies and milestones that lead to high board passage rates
- » **Promote** resident well-being in the learning environment through multiple wellness initiatives
- » **Support** resident scholarship through a Seed Grant program and nearly 100% resident participation in Quality Improvement projects

Our Unique Features

- » All of our residency programs are ACGME-accredited, and our newest program ([Preventive Medicine](#)) has received initial accreditation
- » Our sponsoring institution, the WSU School of Medicine, also has received continuing accreditation, with a commendation for substantial compliance
- » We are affiliated with a historic, urban academic institution, with all the resources of a major US metropolitan area
- » Our Wellness Initiative to address resident well-being has achieved national recognition
- » Our hospital partners offer a variety of high-quality clinical experiences and opportunities
- » Our residents graduate well prepared for clinical practice, academic positions, or fellowship training

Resident Benefits

All those associated with employment by a well-established research institution like Wayne State University, including:

- » All types of insurance for trainee and dependents; retirement savings plans, tuition assistance for trainee and dependents
- » Free financial and investment planning sessions with TIAA-CREF or Fidelity
- » Free enrollment in Ulliance, a university-sponsored Employee Assistance Program for trainee and all eligible family members
- » Free enrollment in Wellness Warriors, a worksite program that provides resources to help trainees achieve their total health goals
- » Free, anytime, anywhere access to WSUSOM's Shiffman Medical Library databases such as PubMed, MEDLINE, and UpToDate

Clinical Partners

BARBARA ANN KARMANOS CANCER INSTITUTE

Located in midtown Detroit, Karmanos has been designated by the National Cancer Institute as among the very best cancer centers in the US. With a budget of \$200 million and 1,200 staff members, including 300 faculty members, Karmanos cares for more than 6,000 patients annually.

ASCENSION PROVIDENCE ROCHESTER HOSPITAL

APRH is dedicated to enhancing the health of patients through the provision of a full range of quality services and medical technologies in partnership with their physicians, staff, and community members.

BEAUMONT - DEARBORN

A full-service teaching hospital, Beaumont provides high-level Clinical care. It serves as the hub for Oakwood's Centers of Excellence in Heart, Vascular, Orthopedics/Neurology, Women's Health, and Cancer.

JOHN D DINGELL VA MEDICAL CENTER

The VAMC provides acute medical, surgical, psychiatric, neurological, and dermatological inpatient care, serving the more than 330,000 US veterans in the Detroit Metropolitan area.

ST. JOSEPH MERCY - OAKLAND

SJMO's recent \$54.5 million expansion demonstrates its commitment to the needs of the community. Its new Surgical Pavilion enables SJMO to combine advanced technology with compassionate care to create a unique healing environment.

MCLAREN MACOMB

McLaren offers cardiovascular care at the Mat Gaberty Heart Center, comprehensive orthopedic services, and a state-of-the-art Surgery Center. The hospital is a Level II Trauma Center and operates one of the busiest EDs in southeast Michigan.

MIDOCS

Interested in a primary-care residency? Consider **MIDOCS**, a program providing physicians with *educational debt relief* in exchange for a long-term commitment to primary-care practice in a rural or underserved community in Michigan.

MIDOCS supports Family Medicine – Urban Track and our new Preventive Medicine program, designed to prepare trainees for leadership roles in public health, healthcare management, or clinical epidemiology.

Holders of J-1 visas are not eligible for the MIDOCS program

We are both very excited to be trailblazers for a new program addressing the issue of 'zip code health,' that depending on where you live, there are quite different and serious social determinants. . . the FM-UT gives us an opportunity as physicians to have a more active role in changing people's lives.

– Inaugural FM-UT residents, 2019-20

Alicia Steele, MD
and Danny García, MD, MPH
